MAINTENANCE CORNER

Winter Weather Storms

Our Maintenance team closely monitors all winter storms and clears sidewalks and stairways accordingly. Depending on the amount of expected snow and the timing, it is probable that our team will be using snowplows and blowers to clear the snow during the night. Please know that we have a community of residents with varying schedules and our team will strive to ensure that our sidewalks and roadways are cleared as soon as possible. Even sidewalks that have been cleared and treated can be slippery - there is a risk. You must use caution! If we must use a contractor to clear the roadways, there is always a chance that damage could occur to our speed bumps so please use caution while traveling as we are not responsible for any damage to vehicles.

Please do not park over sidewalks. Bumpers and/or truck beds that extend over the curb on to the sidewalk create a safety hazard as well as make clearing the walkway near impossible.

Notify the Maintenance Team or Leasing Office promptly of any issues with your heating system. It is normal for your emergency heat to cut on and/or your heating system to run more often and for longer periods of time when the temperatures are extremely low. For emergencies, please call 540-689-0629 to connect to the 24-Hour Answering Service.

Please do not submit emergency service requests through your online portal.
