MAINTENANCE CORNER

Winter Is Here!

Here are some tips for winter travel!

Prepare your vehicle: Make sure your car is ready for winter weather by having a mechanic check it out. You can also upgrade your tires, oil, and fluids, and add interior protection.

Drive slowly; Snow and ice make it harder to stop, so slow down and increase your following distance. Avoid sudden movements: Avoid quick direction changes and sudden stops.

Keep your windows clear: Clear snow and ice from all windows, lights, hood, and roof before driving.

Leave room for plows: Snowplows travel slowly, make wide turns, and stop often. Stay back a safe distance and don't pass on the right.

If you get stuck, stay with your vehicle and try to conserve fuel while staying warm.

Pack an emergency kit: Consider potential issues and pack your car accordingly.

Check the weather: Be aware of winter risks like blizzards, avalanches, and ice storms.

During a snowstorm, do not travel unless absolutely necessary. Residents should stay home and off the roads so that snow removal crews can do their jobs plowing the roadways. If you do have to make a trip, ensure someone is aware of your route of travel.

Always keep the gas tank topped off. When it gets to half, fill it up.

Always buckle up. Your seat belt can be the best protection against drivers who are tense and in a hurry because of weather conditions.

Maintenance Corner Cont.

Pay attention. Don't try to out-drive the conditions. Remember the posted speed limits are for dry pavement.

As the roadways are cleared, large banks of snow line the streets and intersections and may block your vision.

Be especially cautious around the intersections because visibility may be obscured due to large snow banks.

Falling temperatures as evening approaches contribute to icy conditions or black ice.

Watch for pedestrians. If there is a large volume of snow, sidewalks may be impassable which increases pedestrian traffic along roadways.

Please do not park over the sidewalks. Bumpers and/or truck beds that extend over the curb on to the sidewalk create a safety hazard as well as make clearing the walkway nearly impossible.

Christmas Tree Disposal

We wanted to take a moment to remind everyone that we are not able to allow for disposal of Christmas trees in the trash compactor/trash chute. Please be sure to take trees to the Rockingham County Landfill located at: **813 Greendale Road, Harrisonburg, VA 22801.**

They are open Monday-Saturday from 7:00am-4:30pm.

Thank you in advance for your cooperation!
