MAINTENANCE CORNER

Garbage Disposal Tips & Warnings

- Your garbage disposal is not a trash can.
- Don't put metal, plastic, or anything harder than most household foods. No bones! **If you don't eat it, please do not put it down the disposal!**
- Don't put foreign chemicals into your system.
- Run Coffee grinds or fill it up with ice and run a dry cycle once a month to aid and sharpen the teeth.
- To keep from burning the motor, always run cold water before, during, and after usage of your disposal.
- If your disposal is suddenly without power, reset it by pushing in the red button on the motor housing.
- Run the disposal after draining the dish water.
- Corn husks and other high-fiber items shouldn't be put into the disposal as they may clog the drain.

Maintenance Corner Cont.

- Don't put expandable foods, such as rice or noodles, in your disposal.
- Don't put fat of any kind down your disposal. To be rid of liquid fats or grease, store them in an empty can in the fridge and then put them in your trash can.
- Garbage disposals are dangerous. Keep your hands far from moving parts.
- Keep it clean by pouring a little dish soap inside and letting it run for a minute or so with cold water.
- Toss some citrus peels in once in a while to keep the disposal smelling good.
